U.S. DEPT. OF AGRICULTURE
FERRY-MORSE
SEED CO.

DETROIT, MICH.
SAN FRANCISCO, CAL.

TERMS

Our Terms are strictly CASH WITH THE ORDER. Appreciating the satisfaction derived both from selling and planting only the best bulbs, we have taken great pains that everything on our list should be of strictly first class quality. Besides, we have made VERY LOW PRICES, quality considered, hence we must request our friends to ask no indulgence from us in the way of time, but to enclose funds with the order.

Delivery—As bulbs and roots mature at different times during the fall and early winter, shipments will be made as follows: September, Anemones, Freesias, and Ranunculus. October includes the general list of bulbs as Tulips, Hyacinths, Narcissus, Daffodils and miscellaneous bulbs.

Your Name and Address should be written plainly on all orders. Please state whether bulbs are to be shipped by Parcel Post or Express. When no instructions are given we will ship as we think best.

In case of error or dissatisfaction of any kind, please notify us immediately so proper adjustment may be made.

Cash or satisfactory references should accompany all orders. As bulbs are perishable it is not advisable to send them C. O. D. If Local checks are used they must be certified.

Postage and Express Charges.—ALL BULBS will be sent by Mail or Express, charges prepaid, when ordered at single or ten rates. The 100 rates and over, are by Express or Freight at purchaser's expense, unless otherwise stated. *Not less than 5 of any one variety supplied at 10 rates, 25 at 100 rates and 250 at 1,000 rates.* SEEDS will be sent free by Mail, or Express, except as otherwise stated.

Substitution.—It sometimes occurs that our stock of some named varieties of Tulips or other bulbs becomes exhausted before the close of the season, in which case we shall take the liberty of substituting others similar in color and price, being equally as good, if not superior, to the ones ordered. Should any of our customers object to this course, they will please so state in their orders.

We give no warranty, express or implied, as to description, purity, productiveness, or any other matter of any seeds or bulbs we send out, and we will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms they are at once to be returned.

September 1st, 1931.

SPECIAL NOTICE:

If you live east of the Rocky Mountains please send your orders to us in Detroit, Mich. for attention. If you live on the Pacific Coast or west of the Rocky Mountains please forward your orders to us in San Francisco for execution.

FERRY-MORSE SEED CO.

1931 BULB CATALOGUE

Choice bulbs and
seeds for fall planting

SINGLE HYACINTHS

HYACINTHS

Ready for delivery in September

The Hyacinth is so well and so favorably known that it is unnecessary to give any detailed description of its broad upright spike or truss usually thickly set with bell shaped flowers of beautiful waxlike texture. It succeeds well in the house and garden, adorning both with the varied colors and delicious fragrance of its showy flowers.

Pot Culture in the House—Plant from September to December in rich, light, sandy soil. Place the bulb so that its top will be just below the surface, care being taken not to pack the soil as bulbs will be less likely to push out when root growth commences if the soil is fine and loose. Water thoroughly and set in a cool, dark place for several weeks to allow of sufficient root growth. They should be watered occasionally if soil appears to be drying out. During their growth they should be kept near the light at a temperature of 50 to 70 degrees and watered frequently.

Outdoor Culture in Beds or Borders Bulbs may be planted any time from October until the ground is frozen solid. Plant six to ten inches apart, covering four to five inches if soil is light, but not more than two or three inches if soil is heavy. Before severe weather comes on it is necessary to cover the beds with straw, leaves or manure to prevent freezing, the depth of covering varying according to climate.

EXHIBITION HYACINTHS

These bulbs, which are of the maximum size, are recommended for use wherever flowers of the largest size and choicest quality are desired.

Our list contains the very choicest varieties in their respective color classes and we believe the quality of our bulbs will be found unsurpassed.

We have discontinued handling **Double Hyacinths**, the Single kinds having been found more satisfactory in every respect.

SINGLE WHITE

	EACH	TEN
La Grandesse. Extra fine, pure white, splendid bells of great substance.....	\$0 15	\$1 25
L'Innocence. Early, large open spike, very large bells, blush turning to pure white. A leading forcer and bedder.....	15	1 25

SINGLE ROSE

Lady Derby. Splendid bright rose-pink, large bells and fine spike, excellent forcer and bedder.....	15	1 25
Queen of the Pinks. Brilliant rose pink, large spike with large bells.	15	1 25

La Victoire. Brilliant carmine rose, well filled spike. Fine for bedding.....	15	1 25
Roi des Belges. Bright scarlet, upright, well filled spike, splendid bedder; early.....	15	1 25

Single and ten prices include postage. Not less than five of any one variety supplied at ten rates.

EXHIBITION HYACINTHS—Continued

SINGLE DARK BLUE

	EACH	TEN
King of the Blues. Rich dark blue, compact spike, bells medium large, fine for forcing, or bedding.....	\$0 15	\$1 25
Duke of Westminster. Deep purplish blue; large bells.....		

SINGLE LIGHT BLUE

Grand Maitre. Deep lavender-blue, with darker blue shading, splendid coloring. Fine for bedding or forcing.....	15	1 25
Queen of the Blues. Heavy, compact spike of light blue, one of the best of the light blues.....	15	1 25

SINGLE YELLOW

City of Haarlem. Spikes large and well filled. Color pure yellow.....	15	1 25
Sunburst. Rudy apricot or buff. A distinct and very pleasing color.....	15	1 25

BEDDING HYACINTHS

A carefully selected list of named varieties of Hyacinths which are exceptionally desirable for bedding purposes. The bulbs are smaller than the Exhibition size and produce somewhat more compact and shorter spikes.

The varieties offered will be found very uniform in height, season of blooming and the colors suitable for use together without danger of clashing.

	EACH	TEN	100
City of Haarlem. Soft yellow.....	\$0 10	\$0 80	\$7 00
L'Innocence. Pure white.....	10	80	7 00

Queen of the Blues.	10	80	7 00
Queen of the Pinks. Rose pink.....	10	80	7 00
Mixture of above varieties.	10	80	7 00

Single and ten prices include postage. Not less than five of any one variety supplied at ten rates, and not less than 25 at 100 rates.

TULIPS

Although the Late Flowering Tulips are now more popular for outdoor planting than the Early Tulips there are still many who admire the quaint charm of a bed of these dwarf early flowering varieties.

For growing in pots indoors or for florists use the Single Early Tulips are still largely used because of their ease of growth, richness of color and early blooming season.

The culture of tulips out of doors is the same as that of hyacinths, except that the bulbs should be planted about three inches deep and three to six inches apart. Tulips are perfectly hardy, so that only a slight protection is required from extremely cold and sharp winds,

Many of the single varieties force readily and have become great favorites in the house in midwinter. If potted in September and treated as directed for hyacinths they may be had in bloom in December. Two bulbs in a four-inch pot have been found desirable. When they show a tendency to bloom just above the bulbs they must be kept longer in the dark to draw out the flower stems. A splendid effect is obtained by planting from three to a dozen bulbs in a medium sized pot.

All single early varieties commence flowering two weeks in advance of other sorts of tulips and are admirably adapted to culture in pots, borders or beds.

SINGLE EARLY TULIPS

The letters A, B, C, etc., following the name of a variety refer to its time of blooming when planted outdoors, A being the earliest, and those marked B coming into full bloom before those marked A are gone, and those marked C a few days later than the B Class.

The letter d, m or t (dwarf, medium or tall) indicates the comparative height grown outdoors. This will be found useful in selecting varieties for bedding.

WHITE

	EACH	10	100
DIANA, B m. Pure white. Fine for forcing. Flowers of very attractive form	\$0 09	\$0 70	\$5 00

WHITE AND ROSE

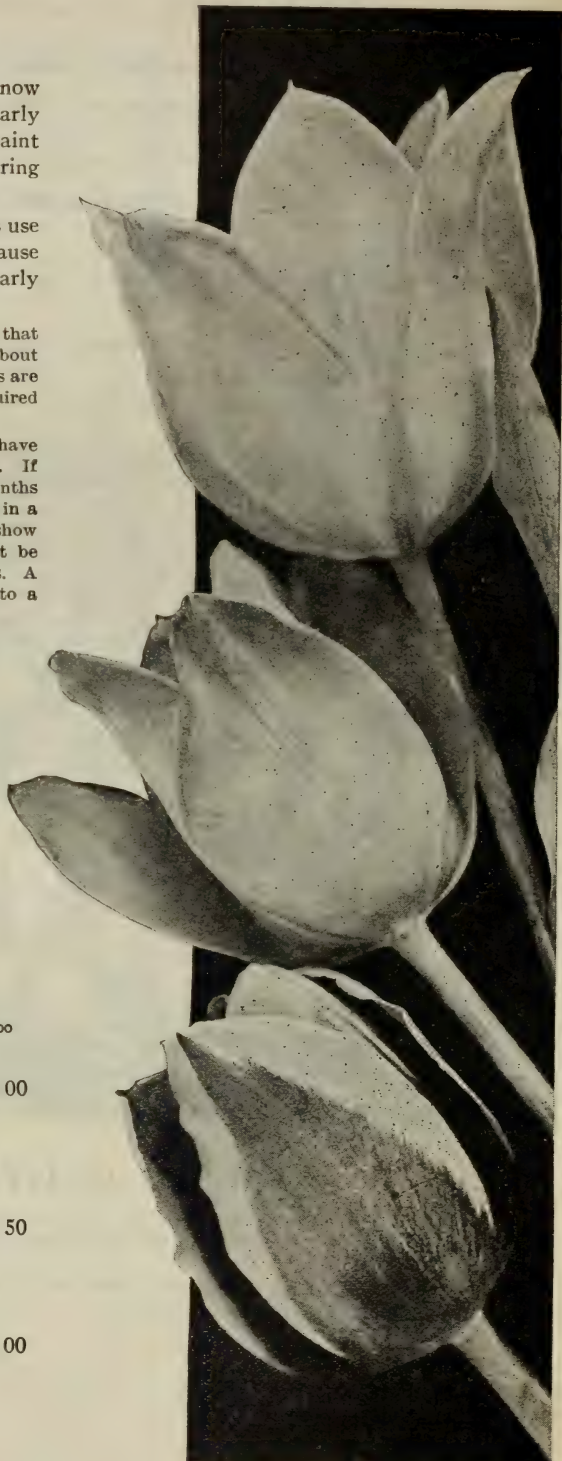

Rose Luisante, B m. Beautiful white and rose of very attractive form; unsurpassed as a later forcing sort.....	10	80	6 50
---	----	----	------

YELLOW

Chrysolora, B m. Large, pure golden yellow, excellent for bedding; holds its color well.	10	80	6 00
---	----	----	------

RED AND YELLOW

Keizerskroon, C t. Extra large deep red with broad golden yellow border; good forcer and fine bedder.....	11	90	6 50
--	----	----	------

SINGLE EARLY TULIPS

Single and ten prices include postage. The 100 rate is by express at purchaser's expense. Not less than five of any one variety supplied at ten rates, and not less than 25 at 100 rates.

SINGLE EARLY TULIPS—Continued

SCARLET

EACH 10 100

Crimson Brilliant. *B m.* Scarlet, early forcer and very good bedder.....\$ 8 \$ 60 \$ 4 00

VIOLET

Van der Neer. *C m.* Beautiful violet, extra large, fine dark color..... 10 80 6 50

DOUBLE TULIPS

The double varieties are generally later in blooming than the single sorts and the flowers usually last much longer in bloom than those of single early tulips. Their very large peony-like flowers in brilliantly contrasting colors serve to prolong very distinctly the season of gorgeous beauty in the spring flower garden.

Those sorts marked *A*, indicate first early and *B*, second early flowering varieties. The letter *d*, *m* or *t* (dwarf, medium or tall) indicates comparative height when grown out-doors. The first early kinds also succeed well in pots.

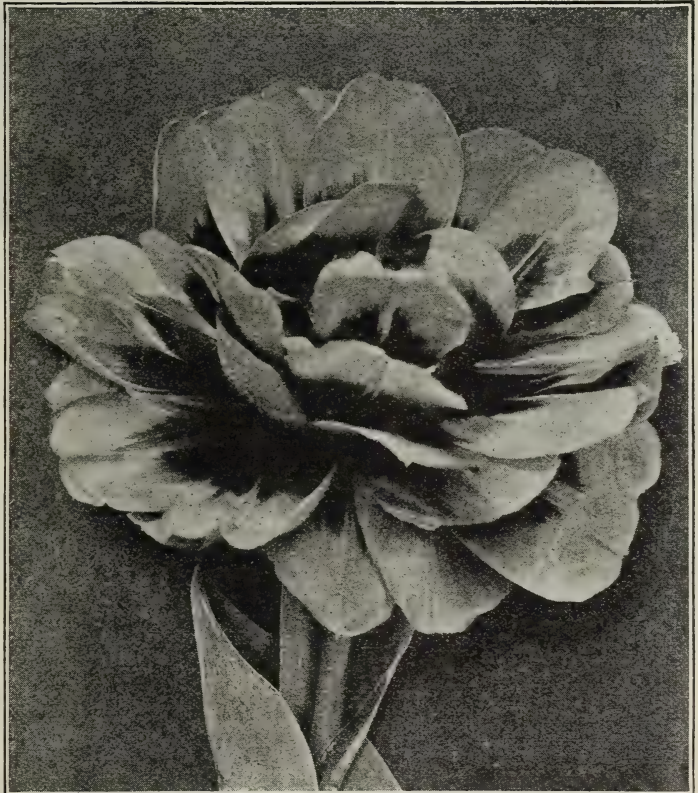

Boule de Neige. *B m.* Pure white flowers of large size and fine double form. 10c. each; 80c. per 10; \$5.50 per 100.

Crown of Gold. (*Couronne d'Or*) *A t.* Golden yellow, shaded orange, large handsome flower. 11c. each; 90c. per 10; \$6.50 per 100.

Imperator Rubrorum. *B m.* Brilliant scarlet, very double, fine forcer and good for bedding with *Boule de Neige*. 11c. each; 90c. per 10; \$7.00 per 100.

Murillo. *A d.* Rose and white, large full double, fine forcer. 9c. each; 70c. per 10; \$5.00 per 100.

Tournesoll. *A m.* Bright red with yellow margin, a large, sweet scented flower; easiest double tulip to force. 11c. each; 90c. per 10; \$6.50 per 100.

DOUBLE TULIP

MIXED TULIPS

These mixtures can be depended upon for evenness in time of blooming and for a splendid range of well balanced colors.

	10	100	1,000
Single Fine Mixed.....	\$0 60	\$4 00	\$38 00
Double Fine Mixed.....	65	4 50	42 00

Single and ten prices include postage. The 100 and 1,000 rates are by express at purchaser's expense. Not less than five of any one variety supplied at ten rates; not less than 25 at 100 rates, and not less than 250 at 1,000 rates.

LATE FLOWERING TULIPS

Under this heading are classed the Cottage or May Flowering, the Darwin, the Breeder, the Rembrandt and the Parrot Tulips.

All are exceptionally desirable for garden decoration and with the possible exception of the Parrots are unsurpassed as a cut flower for vases or baskets.

Each year has shown a well merited increase in their popularity and we recommend unreservedly the planting of them, especially out of doors.

All late flowering tulips should be planted 4 to 6 inches deep and about 5 inches apart. Good drainage being necessary, an inch or so of sand placed beneath the bulbs when planting will be found very desirable to drain off any surplus water. Protect the bulbs with a slight mulch of leaves, removing it as early in spring as growth commences.

The letters D, E, F, G, etc., following the name of a variety refer to its time of blooming when planted outdoors; they follow in close succession the latest of the early flowering sorts. The height is given in inches.

Cottage and Hybrid Tulips May Flowering

An excellent class of single late flowering tulips which are specially adapted for planting among shrubbery or in masses in the open border, where if left undisturbed they will often bloom freely for several years. Their long graceful stems and brilliant colors make them exceptionally desirable for cut flowers; many of them are also delightfully fragrant.

Argo. *F 23 in.* Soft golden yellow with orange penciling towards top of petals. 12c. each; \$1.00 per 10; \$8.00 per 100.

Carrara. *F 25 in.* Large pure white flowers borne on tall stems. A very choice variety. 14c. each; \$1.20 per 10; \$10.00 per 100.

Columbus. *F 18 in.* Bright yellow heavily striped with carmine. Petals reflexed at tips. 13c. each; \$1.10 per 10; \$9.00 per 100.

Fairy Queen. *F 21 in.* Rosy heliotrope, beautifully margined amber yellow; very large flowers with striking art coloring. 9c. each; 70c. per 10; \$5.50 per 100.

Gesneriana Ixioides. *G 22 in.* Egg shaped flowers of pale yellow with brilliant black base. Showy and very beautiful. 10c. each; 80c. per 10; \$6.00 per 100.

Gesneriana Lutea. *G 22 in.* Flowers rich golden yellow, of large size and fine form. 9c. each; 70c. per 10; \$5.50 per 100.

Single and ten prices include postage. The 100 rate is by express at purchaser's expense. Not less than five of any one variety supplied at ten rates, and not less than 25 at 100 rates.

Cottage and Hybrid Tulips—Continued

May Flowering

Gesneriana Spathulata (major). *F 25 in.* Very large, perfect form, the most brilliant scarlet imaginable with distinct bluish black base. One of the largest and finest tulips. 9c. each; 70c. per 10; \$5.00 per 100.

Grenadier. *F 24 in.* Brilliant orange red flowers of largest size. Yellow base. 10c. each; 80c. per 10; \$6.50 per 100.

Inglescombe Pink. *E 24 in.* A stately and attractive bright rose-pink with a salmon sheen and light bright blue base; large egg-formed flowers. 9c. each; 70c. per 10; \$5.00 per 100.

Inglescombe Yellow. *G 21 in.* Clear canary yellow flowers of large size and globular form. Often called the Yellow Darwin. 9c. each; 70c. per 10; \$5.00 per 100.

John Ruskin. *F 18 in.* Apricot rose-shaded mauve; edging of pale yellow. Very attractive in blending of color. 8c. each; 60c. per 10; \$4.75 per 100.

Moonlight. *D 22 in.* A long, soft yellow flower of splendid substance and charming coloring. 8c. each; 65c. per 10; \$5.00 per 100.

Mrs. Moon. *G 25 in.* Deep golden yellow, petals pointed and slightly reflexed. A large and beautiful flower. 10c. each; 80c. per 10; \$6.25 per 100.

COTTAGE TULIP, GESNERIANA LUTEA

Nectar. Lively carmine red, clear white base. Petals slightly reflexed. 11c. each; 90c. per 10; \$7.50; per 100.

Picotée. (*Maiden's Blush*) *F 23 in.* Long, graceful flowers with recurved petals, similar to Isabella but much lighter. Petals ivory white, bordered and tipped with carmine rose which gradually deepens. 8c. each; 60c. per 10; \$4.50 per 100.

Union Jack. *D 20 in.* Light violet feathered purple. Base white fringed with blue. 13c. each; \$1.10 per 10; \$9.00 per 100.

Special Mixed. Single late or "Cottage" tulips in splendid mixture. 8c. each; 60c. per 10; \$4.50 per 100.

Clusiana Tulip

(THE LITTLE LADY TULIP)

Grows about nine inches high; flowers small but very distinct. Outer petals are cherry red, inner petals creamy white with a violet base. Excellent for pot culture as well as out of doors or rock gardens. 10c. each; 80c. per 10; \$6.50 per 100.

Single and ten prices include postage. The 100 rate is by express at purchaser's expense. Not less than five of any one variety supplied at ten rates, and not less than 25 at 100 rates.

CLUSIANA
(The Little Lady Tulip)

DARWIN TULIPS

The flowers of this superb class have well been called "The Tulip Aristocrats." The remarkably brilliant coloring and splendid substance of their large globular or cup shaped flowers, their long strong stems and robust growth of plant, make them unsurpassed for May blooming in the garden. Darwins are not only desirable for outdoor bedding and last a long time after cutting, but they may be forced in pots provided it is done slowly. They range in color from the softest pink through shades of rose and crimson, mauve, violet, purple and maroon. The varieties we offer have been selected from a very large list after careful trials and we believe they are the most satisfactory obtainable. The quality of the bulbs will be found unsurpassed. Culture: the same as that for Cottage or May flowering Tulips.

Afterglow. *F 28 in.* Deep rosy orange with salmon tinted edges, inside of flower deep orange. 9c. each; .65c. per 10; \$5.00 per 100.

Baronne de la Tonnaye. *F 27 in.* Clear carmine-rose, toning off to a soft pink; large long flower. A sturdy variety and one of the best for either bedding or forcing. 8c. each; 60c per 10; \$4.50 per 100.

Blue Aimable. *F 26 in.* Bluish heliotrope, inside deep violet. Flowers not of largest size but of fine form. 8c. each; 65c. per 10; \$5.00 per 100.

FARNCOMBE SANDERS

City of Haarlem. Intense dark scarlet with a darker bloom; large cup-shaped flowers slightly incurved at the tips. 12c. each; \$1.00 per 10; \$8.50 per 100.

Clara Butt. *F 21 in.* Delicate salmon-pink. One of the most popular; good bedder, adapted also for forcing. 7c. each; 50c. per 10; \$4.00 per 100.

Dream. *E 26 in.* Beautiful soft lilac, shading lighter, inside deep violet with blue base. 8c. each; 60c. per 10; \$4.75 per 100.

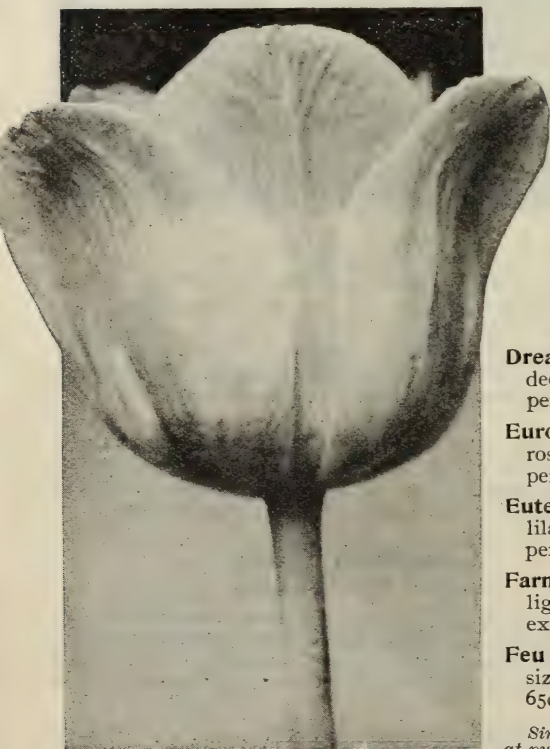

Europe. *F 26 in.* Glowing salmon scarlet Shaded with rose. Splendid for forcing. 8c. each; 65c. per 10; \$5.00 per 100.

Euterpe. *E 28 in.* Mauve lilac, edge of petals tinted soft lilac. Good form and very attractive color. 9c. each; 70c. per 10; \$5.50 per 100.

Farncombe Sanders. *E 26 in.* Vivid rose scarlet, with lighter base. Brilliant coloring, very large size and most excellent form. 8c. each; 55c. per 10; \$4.25 per 100.

Feu Brilliant. *F 28 in.* Scarlet vermilion flowers of large size and fine substance. Base blue and white. 9c. each; 65c. per 10; \$5.50 per 100.

Single and ten prices include postage. The 100 rate is by express at purchaser's expense. Not less than 5 of any one variety supplied at 10 rates, and not less than 25 at 100 rates.

CLARA BUTT

Darwin Tulips—Continued

Flamingo. *C 28 in.* Soft shell pink with light colored base. Flowers of pointed form. 9c. each; 65c. per 10; \$5.00 per 100

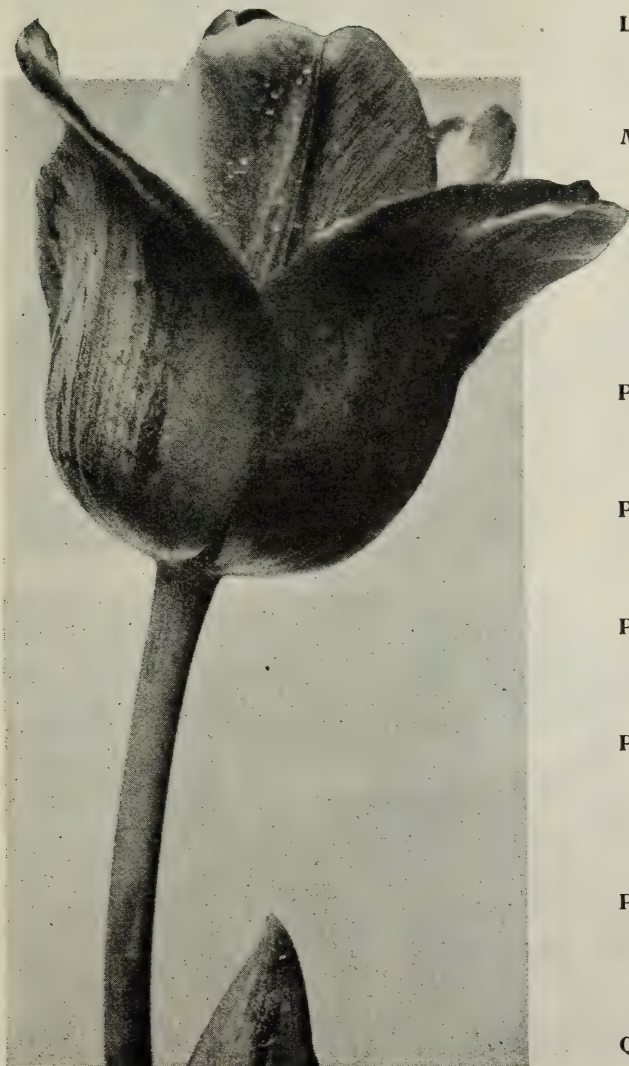

Giant. *F 30 in.* Dark violet with light blue base. Flowers of the largest size borne on long sturdy stems. 13c. each; \$1.10 per 10; \$9.00 per 100.

King George V. *F 25 in.* Bright cherry rose; base blue with white halo. 12c. each; \$1.00 per 10; \$8.00 per 100:

King Harold. *E 25 in.* Deep mahogany red with black base. 8c. each; 60c. per 10; \$4.75 per 100.

Jubilee *E 29 in.* Rich blue purple with white base marked blue. Large flowers of superb open form. The finest Darwin of this color. 13c. each; \$1.10 per 10; \$9.00 per 100.

La Fiancee. *G 30 in.* Deep rose shaded lilac. Base blue. A large flower of very attractive coloring. 10c. each; 75c. per 10; \$6.00 per 100.

PRESIDENT TAFT

La Tulipe Noire. *E 25 in.* Maroon black. The darkest of all tulips. Flowers of large size. 9c. each; 75c. per 10; \$6.00 per 100.

Madam Krelage. *E 29 in.* Soft purplish rose, broadly margined with blush pink; large flowers. Fine for forcing. 8c. each; 60c. per 10; \$4.50 per 100.

Ouida. *F 28 in.* Bright crimson-scarlet, borne on long strong stems. A fiery red flower, unsurpassed for bedding. 9c. each; 70c. per 10; \$5.50 per 100.

Philippe de Commynes. *D 25 in.* Velvety dark purple. A superb forcer and an excellent bedder. 8c. each; 60c. per 10; \$5.00 per 100.

President Taft. *F 30 in.* Deep crimson maroon. Very large flowers borne on strong stiff stems. 10c. each; 80c. per 10; \$6.50 per 100.

Princess Elizabeth. *F 29 in.* Clear deep pink changing with age to rose pink. White base. Splendid for bedding. 8c. each; 55c. per 10; \$4.25 per 100.

Pride of Haarlem. *E 27 in.* Deep carmine-rose, tinted lilac, blue base. Unsurpassed for bedding or borders because of its brilliant color, tall stately habit and pleasing fragrance. 8c. each; 60c. per 10; \$4.50 per 100.

Psyche. *F 27 in.* Old rose edged with a lighter shade; inside of flower silvery rose with light blue base. Large flowers on long graceful stems. 8c. each; 65c. per 10; \$5.00 per 100.

Queen Mary. *F 28 in.* Self colored rose with white and blue base. 11c. each; 90c. per 10; \$7.00 per 100.

Single and ten prices include postage. The 100 rate is by express at purchaser's expense. Not less than five of any one variety supplied at ten rates, and not less than 25 at 100 rates.

Darwin Tulips—Continued

Rev. Ewbank. *E 22 in.* Silvery heliotrope shading to lavender violet at base; a beautiful and distinct color. 8c. each; 55c. per 10; \$4.50 per 100.

Suzon. *E 24 in.* A beautiful large, soft pink or very light rose flower with a bluish white margin. Base white marked with blue. 10c. each; 80c. per 10; \$6.50 per 100.

Zulu. *E 26 in.* Rich purplish black flower, distinctly egg shaped, large and most attractive for forcing. 9c. each; 75c. per 10; \$6.00 per 100.

Zwanenburg *E 28 in.* Pure white with black anthers. Large substantial flowers on long stems. An exceptionally fine, late flowering white tulip. 15c. each; \$1.30 per 10; \$11.00 per 100.

Darwin Mixed. An extra fine mixture in many pleasing shades and colors. 7c. each; 50c. per 10; \$4.00 per 100; \$38.00 per 1000.

Rembrandt Tulips

Late Flowering for the Open Ground

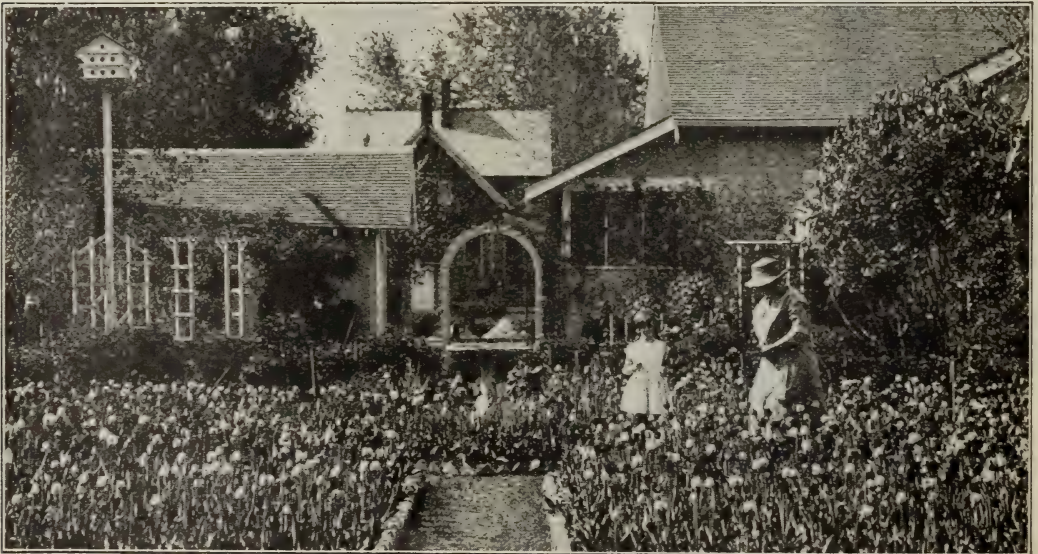

These late tulips are much like the Darwins but are striped and feathered, in this respect resembling the Byblossoms formerly so much used. They are of fine form and substance, lasting well after cutting.

Rembrandt Mixed. Darwin tulips with striped or feathered flowers. Many pleasing shades and colors. 9c. each; 75c. per 10; \$6.00 per 100.

Single and ten prices include postage. The 100 rate is by express at purchaser's expense. Not less than 6 of anyone variety supplied at 10 rates, and not less than 25 at 100 rates.

REMBRANDT TULIPS

Breeder Tulips

For the Open Ground

The flowers of the Breeder tulips are self colored in dull or soft tones of buff, bronze or purple and among them will be found some of the most splendid and beautiful of all tulips; they are usually large, of excellent form and borne on tall, sturdy stems. Not only on account of their large size and odd but beautiful colors, but also because of their great lasting qualities, this class is very popular for garden decoration. While not so well adapted for forcing as some of the other late flowering tulips they do exceptionally well out of doors, and if planted in irregular groups with the more brilliant Cottage or Darwin sorts they produce a display in the early summer months that is most effective. Culture: the same as that for Darwin.

Apricot. *F 26 in.* Deep bronze-buff, shaded ruddy apricot, and showing an olive base. 10c. each; 80c. per 10; \$6.00 per 100.

Bacchus. *F 29 in.* Dark violet purple; white base. One of the best of the dark varieties. A strong and vigorous grower. 11c. each; 90c. per 10; \$7.50 per 100.

Bronze Queen. *F 27 in.* Soft buff, tinged with apricot and bronze; yellow base. A beautifully shaped flower of unusual substance. 8c. each; 60c. per 10; \$4.50 per 100.

Cardinal Manning. *F 28 in.* Dull wine red flushed with bronze; base tinged with yellow. Very large and attractive. 9c. each; 75c. per 10; \$5.50 per 100.

Copernicus. *G 28 in.* Dark coppery bronze, flushed old rose; interior warm brown with yellow base. Very large flowers borne on sturdy stems. 11c. each; 90c. per 10; \$7.00 per 100.

Dom Pedro. *F 25 in.* Coffee brown shaded maroon; base yellowish streaked olive. Flowers large and quite fragrant, 10c. each; 75c. per 10; \$6.00 per 100.

Golden Bronze. *E 24 in.* Rich golden bronze with dull gold base. Interior mahogany brown with deep crome yellow base. One of the most striking varieties in this color. 11c. each; 90c. per 10; \$7.00 per 100.

BREEDER TULIPS

Single and ten prices include postage. The 100 rate is by express at purchaser's expense. Not less than 5 of any one variety supplied at 10 rates, and not less than 25 at 100 rates.

Breeder Tulips—Continued

Louis XIV. *G 27 in.* Rich dark purple flushed with bronze and edged with golden brown. Base circular, dull blue starred with yellow. A flower of enormous size and stately bearing. 9c. each; 65c. per 10; \$5.00 per 100.

Panorama. (*Fairy*) *E 25 in.* Orange red shaded mahogany; base chestnut brown. Very large globular flowers. 9c. each; 70c. per 10; \$5.00 per 100.

Prince of Orange. *G 27 in.* Terracotta with orange edge; base yellowish streaked with olive. Makes a fine showing in the border. 10c. each; 75c. per 10; \$6.00 per 100.

Queen Alexandra. *E 23 in.* Soft primrose yellow broadly flushed with light brown at edge of petals. 9c. each; 70c. per 10; \$5.00 per 100.

Breeder Mixed. A choice mixture of many shades and colors. 8c. each; 65c. per 10; \$4.50 per 100.

Lily-Flowering Tulips

This class has resulted from a crossing of Tulipa Retroflexa and a pink Darwin. The flowers which are borne on tall sturdy stems are very graceful and attractive. The petals are pointed and slightly reflexed. The height, blooming season and culture is the same as the other Late Flowering Tulips.

Eclipse. Orange yellow flushed with rose or pink. 10c. each; 80c. per 10; \$6.50 per 100.

Sirene. *24 in.* Color beautiful cerise pink with pale pink at margin of the segments and with pure white base. 10c. each; 80c. per 10; \$6.50 per 100.

Parrot Tulips

For the Open Ground

Sometimes called Dragon Tulips. These very odd and showy tulips of very large size have curiously cut and fringed petals. They are perfectly hardy and the thick petaled flowers on long stems in variegated colors make a very striking and lasting display entirely distinct from the other May flowering tulips.

PARROT TULIPS

Single and ten prices include postage. The 100 rate is by express at purchaser's expense. Not less than five of any one variety supplied at ten rates, and not less than 25 at 100 rates.

NARCISSUS or DAFFODIL

Culture—Daffodils and Narcissus appear to greater advantage if planted in partial shade. This will prolong their bloom and will help to retain the color of the red and orange cup varieties. Set bulbs from four to five inches deep and eight inches apart. Do not cut the leaves after blooming, but let them die back; if cut back severely, you will have no flowers the following season.

Trumpet Daffodils

The flowers of this class are of large size; the perianth, or petals, measure from $2\frac{1}{2}$ to 4 inches across with the trumpet, or tube, $1\frac{1}{2}$ to 2 inches in length. Flowers are borne on long, stiff stems from 12 to 18 inches. The trumpets of this type are as long or longer than the perianth segments.

King Alfred. Golden yellow perianth and trumpet. Considered the most desirable of all the deep yellow varieties. 20c. each; \$1.75 per 10; \$15.00 per 100.

Emperor. One of the best known Daffodils. Deep primrose perianth with a rich, full, yellow trumpet. 15c. each; \$1.30 per 10; \$11.00 per 100.

Glory of Sassenheim. (*Bicolor*) Pure white perianth, deep golden yellow trumpet. A large flower of excellent form on long strong stems. Early and free flowering. 15c. each; \$1.30 per 10; \$11.00 per 100.

Van Waveren's Giant. Broad primrose perianth; bright yellow trumpet. A tall and vigorous grower producing immense showy flowers of distinctive character. 35c. each; \$3.00 per 10.

Double Daffodils

These hardy double daffodils are much in demand for outdoor bedding and borders and succeed well for indoor forcing. All are fine for cutting.

Von Sion. The well-known Double Yellow Daffodil. Large, double, golden yellow, extra fine for forcing or outdoor culture. 15c. each; \$1.30 per 10; \$11.00 per 100.

Crown or Short Cup Daffodils

Daffodils belonging to this group are crosses between the Trumpet and the Poeticus Narcissus. The crown, or center cup, is about one-half inch in length.

Barri Conspicuous. Broad soft yellow perianth with a short yellow cup, edged orange scarlet. 10c. each; 85c. per 10; \$7.50 per 100.

Lucifer. Perianth white with long, well rounded petals, cup intense orange red. 15c. each; \$1.25 per 10; \$10.00 per 100.

Queen of the North. Broad white perianth with cup of soft primrose yellow edged with white. An exceptionally attractive variety. 12c. each; \$1.00 per 10; \$8.00 per 100.

Sir Watkin. Primrose yellow, large and well formed with soft yellow cup tinged deep yellow. 15c. each; \$1.25 per 10; \$11.00 per 100.

VAN WAVEREN'S GIANT

Single and ten prices include postage. The 100 rate is by express at purchaser's expense. Not less than five of any one variety supplied at ten rates and not less than 25 at 100 rates.

NARCISSUS or DAFFODIL—Continued

Poeticus Narcissus

These have a white perianth with a small flattened yellow cup or eye. Perfectly hardy and easy to naturalize.

Poeticus. (*Recurvis*, *Pheasant's Eye*, or *Poet's Narcissus*) Pure white perianth, orange cup, bordered scarlet. A very fragrant variety. This is the popular late flowering sort and is a very good representative of the Poeticus group. 10c. each; 85c per 10; \$7.50 per 100.

Poeticus Ornatus. Pure white, yellow cup, margin deep scarlet. This variety is nearly a month earlier than Poeticus. It is not so sweetly perfumed as the Poeticus but is larger, showier and earlier. 10c. each; 85c per 10; \$7.50 per 100.

Polyanthus Narcissus

The Polyanthus Narcissus produce many small crowned flowers borne in clusters. They are not as hardy as the other classes but are better adapted for forcing.

They may be grown in pots of earth but usually do best in bowls or dishes of water, by which method the bulbs may be brought into profuse bloom in four to six weeks from planting. Put an inch or two of sand and gravel in the dish in which they are to be grown, set the bulbs on this and put enough gravel or shells around them to keep them from falling over, fill the dish with water and set in a dark closet for a few days until the roots start freely, then bring them to the light and keep in any ordinary living room.

Paper White Grandiflora. Flowers pure snow white, desirable for their beauty and delicious odor. They force admirably and flower freely in dense clusters. Will bloom as early as December. May be grown in either soil or gravel and water. 9c. each; 65c. per 10; \$5.50 per 100.

Grand Soleil d'Or. Yellow with orange cup. Excellent for forcing. 18c. each; \$1.50 per 10; \$12.00 per 100.

Chinese Sacred Lily. (*Narcissus Orientalis*) The flowers of this variety of Polyanthus Narcissus introduced from China are satiny white with golden yellow cup. They are borne profusely in clusters and are very fragrant. 15c. each; \$1.20 per 10; \$10.00 per 100.

Jonquils

(*Narcissus Jonquilla*)

A slender and graceful species with rather small, bright yellow, deliciously fragrant flowers, abundantly produced on stems about a foot long, each bearing a cluster of florets. Leaves quill-like, glossy dark green. Well suited for window plants, and most satisfactory outdoors when planted in large groups or masses. Culture same as Narcissus.

Single. Yellow, deliciously sweet, florets are about one inch across. 10c. each; 90c. per 10; \$8.00 per 100.

Campernelle. (*Odorus*) Single, large yellow florets, about one and one-half inches across. Fine for cutting. 12c. each; \$1.00 per 10; \$9.00 per 100.

Double Campernelle. (*Odorus Plenus*) The true and rare form of double Campernelle. Flowers fragrant, quite double and are borne on tall sturdy stems. A very handsome and desirable sort. 12c. each; \$1.00 per 10; \$9.00 per 100.

Single and ten prices include postage. The 100 rates are by express at purchaser's expense. Not less than 5 of any one variety supplied at 10 rates, and not less than 25 at 100 rates.

PAPER WHITE GRANDIFLORA

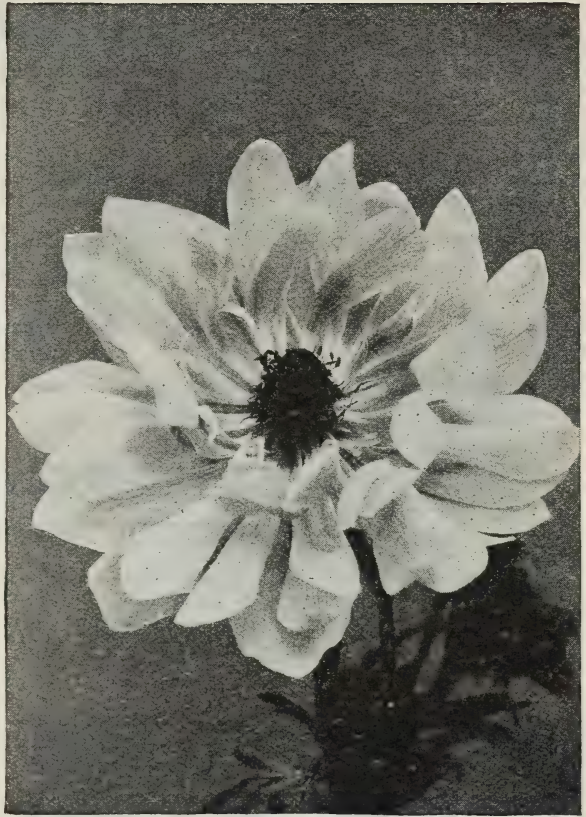

AMARYLLIS

There are few bulbs that are more satisfactory for indoor blooming than the Amaryllis. Each bulb produces two or three flower stems on which are several lily-like flowers of the most vivid colors in shades of vermillion, crimson, scarlet and pink.

Plant the bulbs, which are very large, in pots one to two inches larger in diameter and cover with soil only to the shoulder. Firm the soil well around the bulb, keep fairly cool and water sparingly until growth starts; they may then be brought into a warmer room. Where the winters are not severe they may be grown out of doors and left in the ground permanently.

Belladonna Major. Large rose pink, trumpet-shaped flowers, borne in clusters. 25c each; \$2.00 per 10.

Vittati Hybrids. Immense flowers with petals of velvety texture. The colors range through shades of red, scarlet, pink and white. 65c each; \$6.00 per 10.

ANEMONE ST. BRIGID

ANEMONES

One of the most beautiful and showy flowers, exceedingly brilliant in color. Plant in October or November, four or five inches apart and cover one inch deep in a moist, rich, well drained soil, and then if well protected by leaves or litter, very beautiful flowers may be expected. Make the soil rich and water frequently in the spring.

The bulbs may be kept till spring, when, if planted early, they will do well. For forcing indoors, put three or four roots in porous, rich soil in a five-inch pot. Keep the pots in a cool situation until the roots are well started, when they may be removed to the place where they are desired to bloom.

De Caen Mixed. The giant single variety. 70c per 10; \$5.00 per 100.

St. Brigid Mixed. Large semi-double flowers with finely divided petals. 80c per 10; \$6.50 per 100.

CALOCHORTUS (MARIPOSA TULIPS)

Words convey only a faint idea of these beautiful little flowers. They are natives of California and are fine subjects for naturalizing among rocks or for shady locations. They come in dainty shades of lilac, pink, yellow and white. Plant the small bulbs in a light soil, 2 inches deep and 3 to 4 inches apart.

Superb Mixture. 60c per 10; \$4.00 per 100. Postpaid.

CHIONODOXA (GLORY OF THE SNOW)

An early flowering spring bulb, very desirable for use in borders or rock work. The charming small star-shaped flowers are borne loosely on a small spike four to five inches long and are of an attractive blue color.

The bulbs should be planted about three inches apart. If planted in clumps where they may be left undisturbed they will continue to improve from year to year.

Luciliae. Deep blue with white center. 40c per 10; \$3.00 per 100.

Sardensis. Rich gentian blue. 50c per 10; \$3.50 per 100.

Single and ten prices include postage. The 100 rate is by express at purchaser's expense. Not less than five of any one variety supplied at ten rates, and not less than 25 at 100 rates.

CROCUS

These are among the earliest bulbs to flower and are most effective when planted in masses or in borders. They are perfectly hardy and may be left in the ground undisturbed for three or four years.

Plant 2 or 3 inches deep and 4 inches apart.

ERYTHRONIUMS

(DOG TOOTH VIOLETS)

These dainty, lily-like flowers vary in color through shades of white, rose, yellow and pink. They require a moist, well drained soil and will do particularly well in the shade. The bulbs should be set upright with 2 or 3 inches of soil covering the tip and 2 to 3 inches apart.

Superb Mixture. 60c per 10; \$4.00 per 100.

FREESIAS

The most sweetly scented and one of the most beautiful of the spring flowering bulbs.

Plant the small bulbs 2 inches deep and about 4 inches apart. Prices are postpaid. The bulbs force easily and will come into bloom in January and February in the greenhouse. They also grow well and bloom freely in an ordinary sitting room if placed near a window and not kept too hot. They will stand a slight freezing without injury.

FRITILLARIA

Maleagris Mixed. Bears large bell shaped flowers striped and splashed in a curious way. Plant 2 inches deep and 6 inches apart. 50c per 10; \$4.50 per 100. Postpaid.

IXIAS

An attractive spring flowering bulb with long slender, graceful spikes of flowers. The colors are rich, varied and beautiful with the center always differing in color from the other parts of the flower.

Plant 2 inches deep and 6 inches apart in a sunny location.

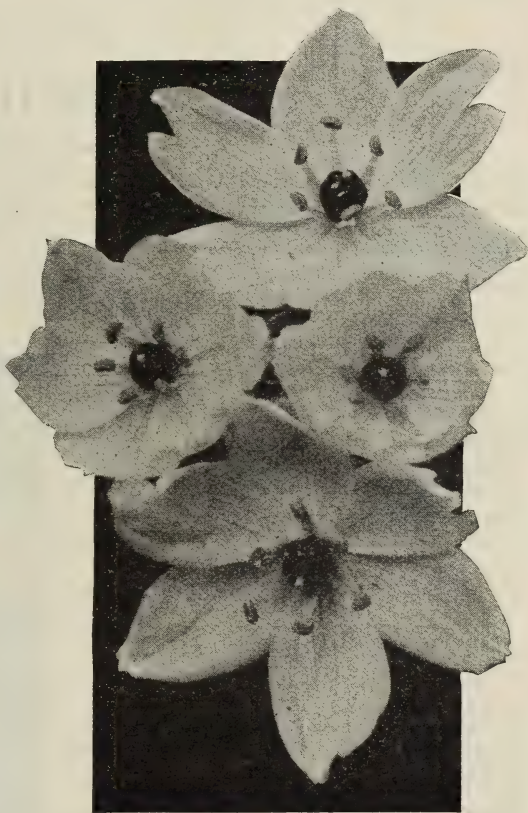

Splendid Mixture. 50c per 10; \$4.00 per 100. Postpaid.

MUSCARI (GRAPE HYACINTH)

Early flowering, dwarf growing plants producing numerous spikes of globular or urn shaped flowers which have a grape-like appearance. They are perfectly hardy, increase rapidly, and flower more freely each year as they become established. They are most attractive when planted in masses or large groups in beds and borders, a charming effect being produced by planting them among late flowering tulips, their clear light blue color making an effective ground-work which will harmonize especially well with flowers of yellow, bronze or purplish tones.

Plant two to three inches deep in any ordinary garden soil or for flowering indoors, four to six bulbs in a five inch pot.

Heavenly Blue. The largest flowered and most desirable variety of the species. Color bright sky blue. Height about eight inches. 45 cents per 10; \$3.50 per 100. Postpaid.

ORNITHOGALUM ARABICUM

ORNITHOGALUM ARABICUM

Produces tall spikes bearing numerous star-shaped flowers of pure white with a black center. Hardy, excellent for cutting and of the easiest culture. 10c each; 90c per 10; \$7.00 per 100. Postpaid.

PEONIES

They are suited for massing in beds and their gorgeous display of flowers is very effective. They are a little slow in their growth the first year but if they are well cared for they will give excellent results in two or three seasons.

They require a deep, rich soil and plenty of water during the flowering season. Place the roots so the crown is covered with two inches of soil. Prices are postpaid.

RANUNCULUS

Attractive spring flowering bulbs producing double or semi-double flowers on stems about nine inches high. They come in a wide range of colors, bright shades of crimson, scarlet, orange, pink, yellow and white.

Ranunculus prefer a sunny location and a well drained soil. The curious, finger-like projections of the bulbs should be planted downward. Plant 2 inches deep and 6 inches apart. October and November are the best planting months, and bulbs may be soaked in water prior to planting.

SCILLA

Ready in September

A beautiful class of small bulbs, with blue bell-shaped or star-shaped flowers, following the Crocus in season. The plants are entirely hardy and need not be disturbed oftener than once in three or four years.

They will thrive in almost any garden soil, and should be planted in October or November, about two inches deep, and in clumps or masses, placing the little bulbs about an inch apart.

Sibirica This is the best Scilla for forcing indoors, coming into bloom with Roman Hyacinths. The rich blue star-shaped flowers are borne on graceful spikes of six to twelve blooms each. 7 cents each; 60 cents per 10; \$4.50 per 100.

SNOWFLAKES (LEUCOJUM VERNUM)

This is one of the earliest and most attractive of the spring flowers. They resemble the Snowdrops, but are larger and of stronger growth. The flowers are white tipped with green and are borne on stems one foot high.

Plant three inches deep and five inches apart. When once established they will take care of themselves. 50c per 10; \$3.50 per 100.

Single and ten prices include postage. The 100 rate is by express at purchaser's expense. Not less than five of any one variety supplied at ten rates, and not less than 25 at 100 rates.

Mary Pickford. A beautiful, dainty cream pink with just the faintest suffusion of salmon.....	.10	.30
Miss California. Soft salmon pink and extremely beautiful.....	.10	.30
Picture. Cream pink with a deeper flush on the wings. Flowers are large and beautifully waved.....	.10	.30
Winnie Morse. Cream ground lightly flushed rose pink.....	.10	.40

PINK—Rose Pink

Ascot. A bright pink with large finely waved flowers.....	.10	.30
Hebe. Giant flowers of rosy pink. A strong vigorous grower.....	.10	.30
Pinkie. Large, deep rose pink. Pinkie is the most outstanding of the pink shades.....	.10	.30

PURPLE

Olympia. An even shade of deep, rich purple.....	.10	.30
Royal Purple. Large flowers of rich purple, borne on long stems.....	.10	.30

ROSE—Light Rose

Eosine. Eosine pink flushed with salmon.....	.10	.60
Good Cheer. Begonia rose. Giant flowers on long strong stems.....	.10	.60

ROSE—Carmine Rose

Brilliant Rose. Bright tyrian rose.....	.10	.30
Doreen. Bright rose carmine. A huge flower and popular on account of its large size.....	.10	.30
Rosabelle. Bright rose crimson. A strong, sturdy grower.....	.10	.30

SCARLET

All Bright. A very intense scarlet cerise.....	.10	.40
Campfire. A bright, vivid shade of flame scarlet.....	.10	.30
Morse's Sunproof Scarlet. The brightest scarlet sweet pea.....	.10	.30
Royal Scot. Brilliant, striking scarlet.....	.10	.30

STRIPED and FLAKED

Senator. Chocolate and maroon flakes and stripes on a light ground.....	.10	.30
--	-----	-----

WHITE

Avalanche. Very large pure white.....	.10	.30
Constance Hinton. Large, pure white. Black seeded.....	.10	.30
King White. Giant pure white. White seeded.....	.10	.30
White Spencer. Pure white. Improved strain.....	.10	.30

SWEET PEA MIXTURES

SUPERB SPENCER MIXTURE LATE FLOWERING. This superb Mixture has been formulated to afford unusual richness and brilliancy. It contains the finest named sorts. Pkt.10c; Oz. 25c; $\frac{1}{4}$ lb. 75c.

American Quintet—Collection This selection contains five recent Morse introductions all of which are of unusual merit and distinction. They are the following: All Bright, Mary Pickford, Pinkie, Reflection and Winnie Morse.

Each set of five 40c

Anniversary Collection In Commemoration of our seventy-fifth year of business we offer for the sum of seventy-five cents ten beautiful varieties as follows: All Bright, Olympia, Constance Hinton, Pinkie, Crimson King, Powerscourt, Majestic Cream, Reflection, Miss California and Youth.

Each set of ten 75c

New Early Flowering Sweet Peas For 1931

LONG STEMMED NOVELTIES

Early Greeting

(LONG STEM)

We are delighted to be able to offer a really long stemmed, clear lavender Early Sweet Pea. We are most enthusiastic over Early Greeting' as we consider it the greatest lavender Sweet Pea in the Early Flowering section. It is easily the clearest of all lavender Sweet Peas. The standard and wings carry the same soft, even coloring throughout, and whether grown under glass or in the open, the color is magnificent in its soft, clear, lavender tone.

The flowers are extremely large, are nicely waved, and the four blooms are well placed on long stems.

We feel we cannot say too much in favor of Early Greeting, and we know it will be a great favorite, whether grown for profit or pleasure.

25c Per Packet.

Early Pride

(LONG STEM)

We have no hesitation in offering Early Pride as a welcome addition to the long stemmed varieties which we have introduced and which are now finding so much favor.

Early Pride is a pure cerise, of most even coloring, deeper in shade than Early Sunray, with large flowers borne on long stems. It is very common to have four flowers to the stem, and when grown in the open, we found four flowers were the rule rather than the exception. The flowers are well frilled and are borne in profusion.

25c Per Packet.

Early Fancy

(LONG STEM)

As the name implies, this is a unique Early Flowering Sweet Pea. The color is old rose on cream ground, deepening towards the middle of the standard and the edges of the wings. The flower has the appearance of being flaked heavily although it is not a regular striped or flaked flower.

A bunch effect is most striking and visitors to our Trials have been very favorably impressed with Early Fancy. It is an unusually large flower and the stems are extremely long. The flowers are beautifully placed on the stems, and the growth is vigorous. Because of its vigorous growth, long stems, large flowers and unique coloring, Early Fancy will be popular in garden and greenhouse alike.

25c Per Packet.

EARLY FANCY

EARLY FLOWERING, LONG SEASON SPENCER SWEET PEAS

	PKT.	OZ.
Early Alameda. A deep rose pink approaching cerise.....	\$0.10	\$0.60
Early Apollo. Soft salmon cerise.....	.10	1.00

Early Springsong. Large flowers of salmon pink on a cream ground. They are nicely waved and borne on long stems.....	.10	.60
Early Sunray. A brilliant, glowing, yet soft cerise on a cream ground.....	.10	.60
Early Superior Pink. The color is a beautiful rose pink slightly shaded with salmon.....	.10	.60
Early Vogue. Clear lavender wings, standard lilac flushed with rosy lavender.....	.10	1.00
Early Vulcan. The coloring is a bright, vivid scarlet which does not burn in the brightest sunlight.....	.10	.60
Early White Harmony. A black seeded white Sweet Pea and does not show the least tinge of pink which is usual with a black seeded variety. Produces large flowers on long stems.....	.10	1.00
Early Zolane's Rose. Large flowers of a bright rose pink, borne on strong, stiff stems.....	.10	.60
Early Flowering Mixed. A beautifully blended mixture containing the best of the standard sorts in correct proportions.....	.10	.40

Early "Five" Collection. A group of five dependable sorts that the public should know. The varieties are as follows: Early Aviator, Early Columbia, Early Harmony, Early Marine, Early Springsong.

Each set of five; 40c.

Spanish Mission Collection. For the gardener who is unacquainted with the Early Flowering Spencers, we have selected ten splendid sorts which will give excellent satisfaction. They are the following: Early Alameda, Early Aviator, Early Giant Rose, Early Harmony, Early Marine, Early Oriental, Early Springsong, Early Sunray, Early Vulcan, Early White Harmony.

Each set of ten; 75c.

CHOICE FLOWER SEEDS

FOR FALL PLANTING

Where the climate is not too severe, many hardy sorts of flower seeds succeed best if sown in the open border during August, September and October. Some hardy annuals, when sown late in the fall, so that the seeds will remain dormant in the ground during winter, will start earlier in the spring, thrive better and flower sooner than if sown in spring. Such hardy sorts as Columbine, Delphinium, Foxglove, Hollyhock, etc., that do not bloom until the second season, unless started very early in spring, are particularly recommended for fall planting. They should be sown early enough to make pretty good plants before very cold weather—say not later than the middle of September and where weather is at all severe the plants will need some slight protection. Then they will flower freely the next summer.

GRASSES FOR LAWNS

The essentials for a fine lawn are: First, a rich, well drained soil; second, careful preparation of the ground, making it as fine and smooth and mellow as possible; third, a wise selection of seeds; fourth, sowing at such a time as to give the young plants a chance to become well established before being subjected to very dry or cold weather or to the direct rays of the hot summer sun. Too much care cannot be bestowed upon the selection of grasses, as some varieties are the most luxuriant in spring, others in summer, others again in autumn and a combination of the proper sorts is required for a perfect, carpet-like lawn. If sown in the spring, sow as early as possible, making the surface very fine and smooth, then raking it over and sowing the seed just before a rain which, if the surface has just been raked, will cover the seed sufficiently. For fall seeding sow before the autumn rains and early enough to enable the young grass to become well established before very cold weather, when a light dressing of manure should be given.

Astoria Bent. A comparatively new and distinct kind of grass; seldom produces stolons but spreads from underground root stalks; produces splendid turf. Excellent for lawns and golf greens. Lb. \$2.00, 10 Lbs. \$18.00 postpaid.

Canadian Blue. (*Poa compressa*) Similar to Kentucky Blue. Succeeds best on clay soil but also does well on sandy loam. Valuable for use in lawn grass seed mixtures. Lb. 30c, 10 Lbs. \$2.50 postpaid.

Chewing's Fescue. (*Festuca rubra*) A New Zealand grown strain of Red or Creeping Fescue with which it is identical in practically all respects. Lb. 55c, 10 Lbs. \$5.00 postpaid.

Kentucky Blue Grass. (*Poa pratensis*) We recommend this hardy sort as the best grass for lawn purposes. It is slightly creeping in habit and grows most extensively in the early summer. It forms a good turf, is permanent and makes an ideal lawn. Well adapted to all soils. Lb. 45c, 10 Lbs. \$4.00 postpaid.

Perennial Rye Grass (Pacey's). (*Lolium perenne*) A tufted fine leaved grass much used in mild climates where it is really hardy. Valuable due to its very rapid growth. Lb. 25c, 10 Lbs. \$2.00 postpaid.

Red or Creeping Fescue. (*Festuca rubra*) A creeping rooted grass, resisting extreme drought, and especially adapted for forming a close and lasting turf in shady places. Valuable also for

exposed hillsides, and golf courses. Lb. 55c, 10 Lbs. \$5.00 postpaid.

Red Top. (Fancy) (*Argostis vulgaris*) A variety well adapted to growing where extensive care cannot be expended on the lawn. The leaf-blades are narrow, becoming very thin with turf cultivation. It gains maximum development in early fall. Succeeds in all soils. Lb. 40c, 10 Lbs. \$3.50 postpaid.

Rough Stalked Meadow. (*Poa Trivialis*) "Rough Stalked" refers to roughness of the stem when allowed to go to seed. An excellent grass for shaded locations. Lb. 55c, 10 Lbs. \$5.00 postpaid.

Seaside Bent. A stoloniferous grass. Used principally for golf purposes. Good color. A most popular strain of Bent. Lb. \$2.00, 10 Lbs. \$18.00 postpaid.

South German Mixed Bent. (*Agrostis stolonifera*) This is particularly valuable for lawns that are to be used for croquet grounds or for tennis courts, because it is benefited more than hurt by tramping and by its bright color adds to the beauty of the lawn. Lb. \$1.00, 10 Lbs. \$9.50 postpaid.

White Dutch Clover. A small creeping perennial variety valuable for lawns. It grows very rapidly, forming a close herbage that remains green throughout the season. It does well on all soils and especially where lime is present. Lb. 65c, 10 Lbs. \$6.00 postpaid.

Lawn Grass Mixtures

Fine Mixed Lawn Grass. A distinctly superior mixture of the best and cleanest grades of seed. The varieties which it contains are best adapted to general lawn purposes. Lb. 50c, 10 Lbs. \$4.50 postpaid.

Extra Fine Mixed. Each variety included in it has a different period of most luxuriant growth so that the lawn is in excellent condition all summer. One pound of seed is a minimum quantity sufficient to sow 200 square feet. Lb. 65c, 10 Lbs. \$5.50 postpaid.

Shady Lawn Mixture. An excellent selection of fine grasses which thrive under the shade of trees or buildings where there is little sun. Lb. 70c, 10 lbs. \$6.50 postpaid.

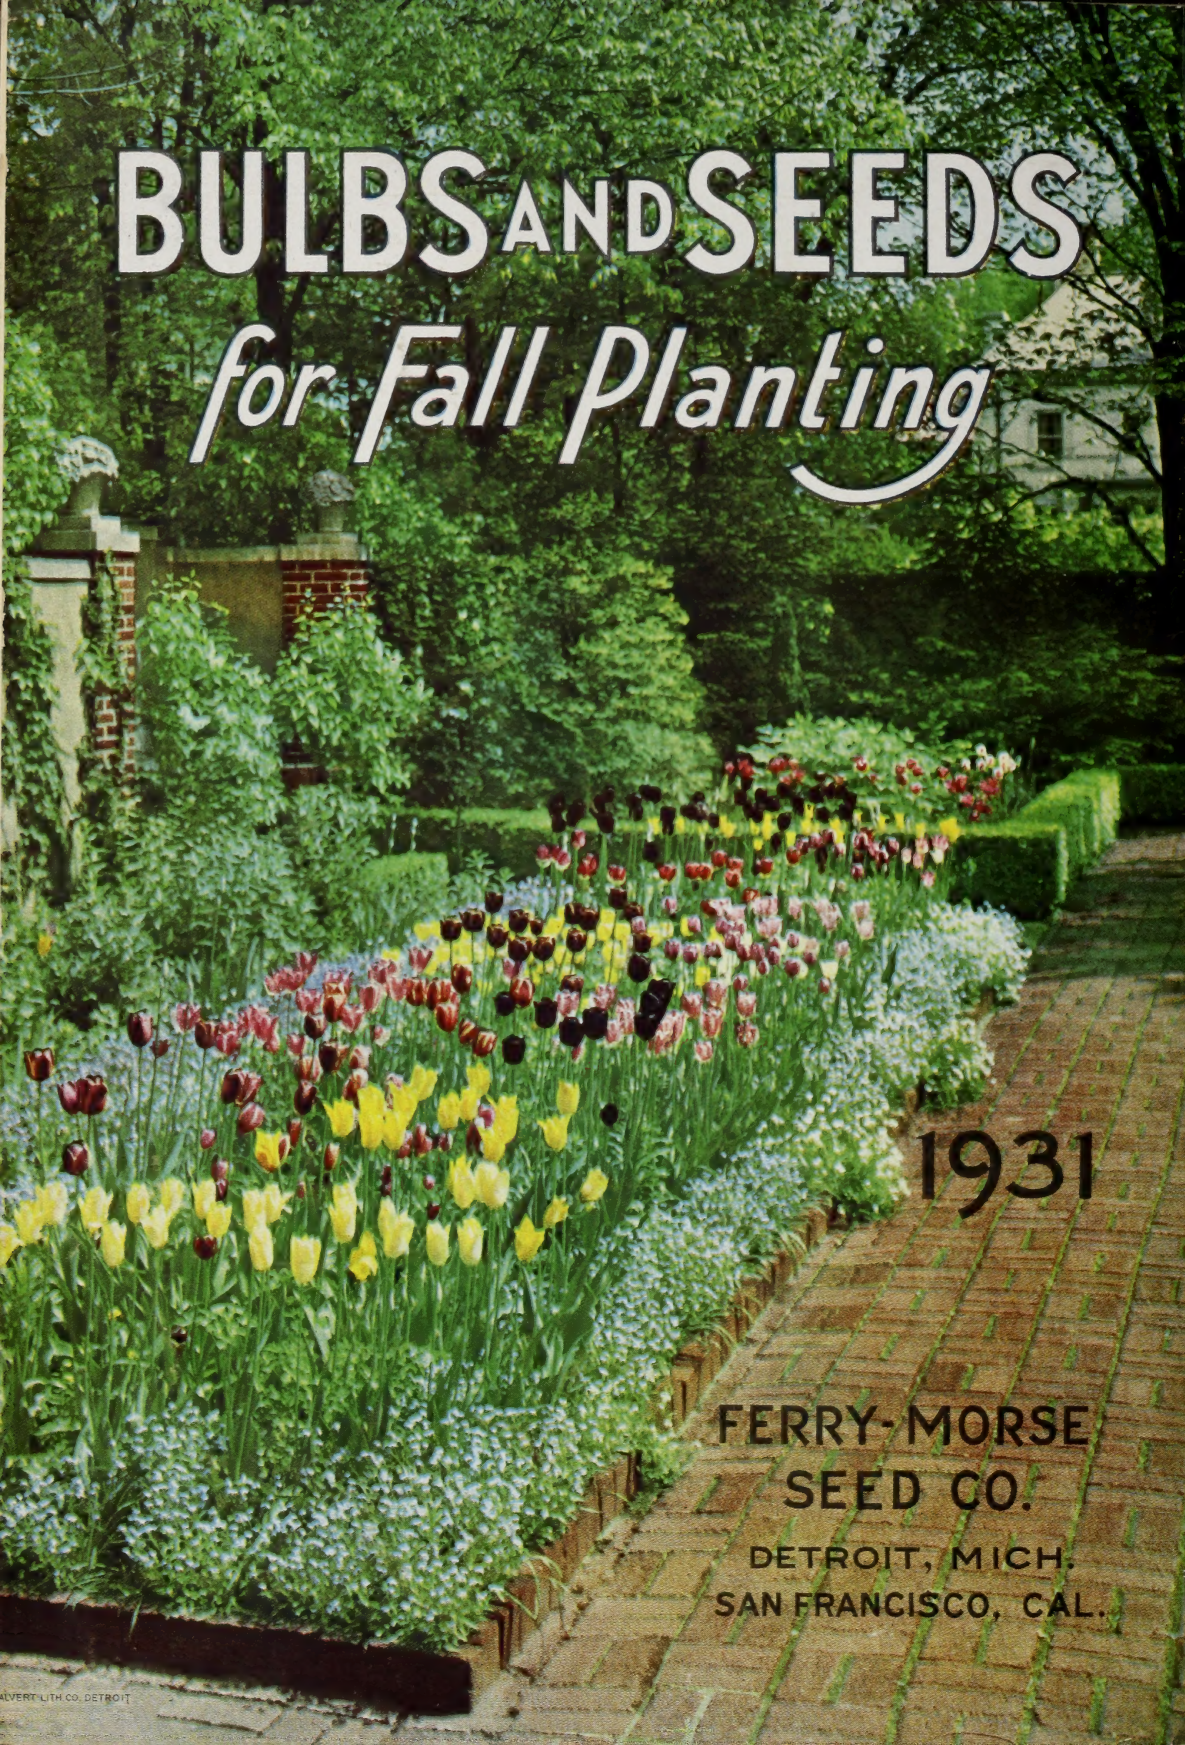

The Following Mixtures are Particularly Adapted for California Conditions

Orders for the Following Should be Sent Only to
FERRY-MORSE SEED CO., SAN FRANCISCO, CALIFORNIA

Morse's California Lawn Mixture. (No white clover or rye grass.) An excellent mixture for fine lawns, especially in the West. It contains only the finest-leaved grasses to make a good, fine perennially green turf. Lb. 60c, 10 Lbs. \$5.50 postpaid.

Morse's Golden Gate Park Lawn Mixture. A mixture which contains the most hardy and resistant grasses used to make sod where grass must endure much trampling. It includes very little white clover. Lb. 50c, 10 Lbs. \$4.50 postpaid.

Not less than 10 Lbs. sold at the 10 Lb. rate. Please write for prices on larger quantities.
